

# LDO 50

## Rock Solid Performance

- 1/2 HP AC Motor
- Interchangeable Belt or Chain Drive, T or I-Rail
- 100 Watt Courtesy Light
- Secure Long-Range Remote
- Built-In Diagnostics
- Lifetime Warranty on Motor and Belt

*The LDO50 includes a multi-function Wall Station and 3-button Visor Remote Control*

### Belt Drive or Chain Drive, T or I-Rail

Choose from our exceptionally quiet belt drive or our solid-performing chain drive, in T or I beam rail configurations. (T rails easily convert to I beams)

### Safety First, Safety Always

If the obstacle-sensing beam is crossed when the door is closing, the door reverses to fully open.

### Park or Reverse Door

To permit both ventilation and access, the garage door can be stopped and parked during either upward or downward travel.

### Secure, Responsive Remote Control

Linear® remote controls operate over a long range and employ high-security technology.

### Deluxe Wall Station

All controls are large, clearly marked and illuminated (door UP/DOWN control, courtesy light switch, and vacation mode).

### Automatic Courtesy Light

The 100W MAX light illuminates the garage for five minutes every time the operator is used.

### Easy Door Release

When you need to open or close the garage door manually, simply release the operator's quick-disconnect trolley.

### Assurance Through Self Checks

The operator's self-diagnostic system continually checks to see whether everything is working properly. In the unlikely event of a problem, it will pinpoint the trouble and let you know by flashing the courtesy light. You can often solve the problem on the spot with a call to your Linear dealer.

### Options

Your Linear dealer is a great source for everything from miniature key ring transmitters and multi-button visor transmitters to wireless keypads.
